MAXI TROTS POLICY

1. BACKGROUND

- 1.1 There was a need for greater exposure of Harness Racing and to develop and foster relationships between NSW Mini Trotting Association Inc. (NSWMTA) and Harness Racing New South Wales (HRNSW) with regard to the joint development of future participants, particularly in the 14 to 15 year age group, where they could be too large and experienced to drive Shetland ponies, while too young to compete in licensed trotting meetings.
- 1.2 It was decided that NSWMTA and HRNSW would work together to develop a pathway for Mini Trotting Drivers wishing to progress further outside of joining the ranks of open horsemen and providing the experience and opportunities for junior drivers in a new concept called Maxi Trots, which would provide stimulation, progression, a greater challenge and is to encourage a greater participation in the sport of harness racing.
- 1.3 The Maxi Trots concept is to be for drivers that are 14 or 15 years of age that have graduated from the Mini Trotting Association having satisfied a certain criteria. Maxi Trots will promote friendly competition in an atmosphere of co-operation and good sportsmanship. Maxi Trots is to assist the void between when participants are too old for Mini Trotting and when they can be involved at senior level - a gap that needs to be bridged.
- 1.4 The Maxi Trot concept will allow Mini Trotting Members that meet the “criteria” to participate and obtain a greater understanding of training, feeding, and preparation of Standardbreds and aims to improve the growth and development of future senior participants.
- 1.5 It is envisaged that such a program will develop a workable format for training young 14 and 15 year old’s wishing to obtain an understanding of harness racing.
- The program is expected to lead to a number of the participants graduating and being able to train, obtain a C Grade Drivers License and finally a B Grade Driver’s License and a Concession Drivers Claim to drive in licensed trotting meetings.
- 1.6 It is planned, as part of the promotional activities within the industry Maxi Trots to gain wide exposure through the running of open days and providing dual sulky ride opportunities.
- 1.7 The Maxi Trotting concept also provides an additional opportunity to promote life after racing for Standardbreds and the relative application of important animal welfare strategies, by offering the opportunity to participate in Maxi Trots is seen as a way to address the wastage of horses in the industry. Maxi Trots can provide viable opportunities for sound horses of good temperament that are not competitive in licensed events.
